EDUCATION

Koneru Lakshmaiah Education Foundation (KLEF)

B.Tech in Computer Science & Engineering (AI & IPA); **CGPA: 9.16/10**

Guntur, Andhra Pradesh, India

Aug 2022 - Jul 2026

TalentSprint – Part of Accenture

Placement Training Programme – Full-Stack Development Track

Python, MERN, Java, Data Structures & Algorithms

Hyderabad, Telangana, India

Jun 2026 - Dec 2026

Actively Enrolled

EXPERIENCE

Java Full Stack Developer Intern

Jul 2026 - Oct 2026

Zidio Development

Bengaluru, Karnataka, India (Remote)

- * Developed full-stack web modules and RESTful APIs using Java, Spring Boot, and JavaScript
- * Optimized database queries with JPA/Hibernate and resolved application issues during Agile sprint cycles
- * Collaborated with the team on version control, code reviews, and sprint planning using Git.

Python Developer Intern

Jun 2024 - Jul 2024

Octanet Services Pvt Ltd

Vijayawada, Andhra Pradesh, India (Remote)

- * Built core ATM operation features, including balance inquiries, withdrawals, deposits, and transaction history
- * Applied object-oriented design principles and software development best practices in Python
- * Gained hands-on experience solving real-world problems in a fast-paced development environment.

PROJECTS

Field Service Management Platform | Spring Boot, React, TypeScript, PostgreSQL

- * Architecting a centralized, role-based management suite to dispatch technicians, track parts, and monitor SLA compliance across work orders.
- * Integrating secure JWT authentication, dynamic analytics dashboards, and self-service portals to streamline service turnaround.

Online Job Portal | React.js, Node.js, Express.js, MongoDB

- * Engineered a responsive MERN recruitment platform with dynamic job-filtering and applicant management features.
- * Optimized MongoDB indexing and Express route handling to improve page load speed and query performance.

Airline Reservation System | Django, Flask, JavaScript, SQLite

- * Built an end-to-end booking application featuring secure authentication, automated seat allocation, and mock payment processing.

AI-Driven Personalized Nutrition & Fitness System | Python, IoT, ESP32

- * Deployed an IoT telemetry pipeline using ESP32 and MAX30100 sensors to capture real-time biometric data
- * Built machine-learning data pipelines to process vitals and generate personalized health and dietary recommendations.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, HTML, CSS

Frameworks & Libraries: Spring Boot, React.js, Node.js, Express.js, Django, Flask, JPA/Hibernate

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, VS Code, PyCharm, RESTful APIs, Agile/Scrum

CERTIFICATIONS

- Automation Anywhere Certified RPA Professional (Automation 360) – 2023
- Salesforce AI Associate
- Oracle Cloud Infrastructure 2024 Certified
- Python Certification

LEADERSHIP

Core Member-School of Data Science (SODS), KL University

Contributed to technical workshops, student mentorship, and initiatives promoting a culture of innovation and analytical thinking within the club.
